

Hybrid Work and Peripherals

Hybrid Work & Peripherals

From Hybrid Work to Gaming, the most natural experiences come from the things we touch, hear, and see – and that makes peripherals just as essential as the PC. So essential, in fact, that people refresh their peripherals 5 times faster than their PC, on average. Our acquisition of HyperX positions us as the #1 player in gaming audio peripherals in the US, and helps us to create full, immersive experiences that go far beyond the PC.
